TEN VOLUME INDEX

Tom 31, 1967–Tom 40, 1976 — Volume 1, 1967–Volume 10, 1976

	Russian		English	
	Tom	Pages	Vol.	Pages
Abraškin, V. A. *Good reduction of two-dimensional abelian varieties*	40	262–272	10	245
Adjan, S. I. *Infinite irreducible systems of group identities*	34	715–734	4	721
On some torsion-free groups	35	459–468	5	475
Adjan, S. I. (see also Novikov, P. S.)				
Afraĭmovič, V. S. and Šil'nikov, L. P. *On attainable transitions from Morse-Smale systems to systems with many periodic motions*	38	1248–1288	8	1235
Ahiezer, D. N. *Compact complex homogeneous spaces with solvable fundamental group*	38	59–80	8	61
Ahmetžanov, A. A. *Some properties of anisotropic Calderón-Zygmund classes*	38	430–445	8	436
Akopjan, S. A. and Hačatrjan, O. I. *On the closure of nonclosed systems of functions of Mittag-Leffler type*	40	96–114	10	93
Alekseevskiĭ, D. V. *Classification of quaternionic spaces with a transitive solvable group of motions*	39	315–362	9	297
Alenicyn, Ju. E. *Area theorems for functions analytic in a finitely connected domain*	37	1132–1154	7	1129
Al'per, S. Ja. and Vinogradova, I. Ju. *On approximation in the mean on curves in the complex plane by polynomials with integer coefficients*	34	547–563	4	551
Amstislavskiĭ, V. I. *Recursivity and R^c-operations*	38	1221–1237	8	1209
An, F. I. See Subhankulov, M. A.				
Andožskiĭ, I. V. *On some classes of closed pro-p-groups*	39	707–738	9	663
Andožskiĭ, I. V. and Cvetkov, V. M. *On a series of finite closed p-groups*	38	278–290	8	285
Andrianov, A. N. *Rationality theorems for Hecke series and zeta functions of the groups GL_n and SP_n over local fields*	33	466–505	3	439
Andrianov, A. N. and Maloletkin, G. N. *Behavior of theta series of degree n under modular substitutions*	39	243–258	9	227
Andrienko, V. A. *The imbedding of certain classes of functions*	31	1311–1326	1	1255
Andrunakievič, V. A. and Rjabuhin, Ju. M. *The additive theory of ideals in systems with residuals*	31	1057–1090	1	1011
Anosov, D. V. *On an additive functional homology equation connected with an ergodic rotation of the circle*	37	1259–1274	7	1257
Existence of smooth ergodic flows on smooth manifolds	38	518–545	8	525
Antonevič, A. B. *Elliptic pseudodifferential operators with a finite group of shifts*	37	663–675	7	661
Arakelov, S. Ju. *Families of algebraic curves with fixed degeneracies*	35	1269–1293	5	1277
Intersection theory of divisors on an arithmetic surface	38	1179–1192	8	1167
Arhipov, G. I. and Čubarikov, V. N. *Multiple trigonometric sums*	40	209–220	10	200
Arhipova, A. A. *On least supersolutions for a problem with an obstacle*	37	1155–1185	7	1153
Arov, D. Z. *Darlington realization of matrix-valued functions*	37	1299–1331	7	1295
Aršon, I. S. *On the decrease of harmonic functions of three variables in a solid of revolution*	32	756–771	2	725
Phragmén-Lindelöf theorems for the solutions of an elliptic system in two independent variables with constant coefficients	38	909–936	8	909
Artamonov, V. A. *Projective metabelian Lie algebras of finite rank*	36	510–522	6	504
Orbits of the group $GL(r, k[X_1, \ldots, X_n])$	38	484–494	8	490
Ašmanov, S. A. and Bronštein, M. A. *Simple polyverbal operations*	35	1409–1428	5	1418
Avdeenko, A. A. See Lebed', G. K.				
Avramov, L. L. *On the Hopf algebra of a local ring*	38	253–277	8	259
On the homology of a tensor product of local rings	39	3–14	9	1
Azizov, T. Ja. *Dissipative operators in a Hilbert space with an indefinite metric*	37	639–662	7	639

	Russian Tom	Russian Pages	English Vol.	English Pages
Babaĭcev, V. A. *On some questions in the theory of Γ-extensions of algebraic number fields*	40	477–487	10	453
On some questions in the theory of Γ-extensions of algebraic number fields. II	40	715–726	10	675
Badaljan, G. V. *The application of a convolution transform to the theory of the generalized Stieltjes moment problem*	31	491–530	1	475
On the successive derivatives of functions in a quasianalytic class	32	788–820	2	745
On classification and representation of infinitely differentiable functions	34	584–620	4	587
Generalized quasianalyticity and a uniqueness criterion for a class of analytic functions	38	333–373	8	339
Balašov, S. K. *On entire functions of finite order with zeros on curves of regular rotation*	37	603–629	7	601
On entire functions of completely regular growth along curves of regular rotation	40	338–354	10	321
Bažmakov, M. I. and Kirillov, A. N. *Lutz filtration of formal groups*	39	1227–1239	9	1155
Batuhtin, V. D. and Čencov, A. G. *On a programmed construction in a positional differential game*	39	926–936	9	877
Belickiĭ, G. R. *Normal forms for formal series and germs of C^∞-mappings with respect to the action of a group*	40	855–868	10	809
Belonogov, V. A. *Characterization of some finite simple groups*	35	789–799	5	805
Characterization of some finite simple groups by biprimary subgroups. II	37	988–1009	7	990
Belopol′skiĭ, A. L. and Birman, M. Š. *The existence of wave operators in scattering theory for pairs of spaces*	32	1162–1175	2	1117
Belošapka, V. K. *On a metric property of analytic sets*	40	1409–1414	10	1333
Bel′skiĭ, A. A. *Cohomological Witt rings*	32	1147–1162	2	1101
Belyĭ, V. I. and Mikljukov, V. M. *Some properties of conformal and quasiconformal mappings and direct theorems of the constructive theory of functions*	38	1343–1361	8	1323
Berezin, F. A. *Covariant and contravariant symbols of operators*	36	1134–1167	6	1117
Quantization	38	1116–1175	8	1109
Quantization in complex symmetric spaces	39	363–402	9	341
Berkovič, Ja. G. *A generalization of the theorems of Hall and Blackburn and their applications to nonregular p-groups*	35	800–830	5	815
Berman, D. L. *On interpolation theory in the complex domain*	36	789–794	6	782
Biberman, A. M. See Romanovskiĭ, R. K.				
Birman, M. Š. *A local criterion for the existence of wave operators*	32	914–942	2	879
Scattering problems for differential operators with perturbation of the space	35	440–455	5	459
Birman, M. Š. (see also Belopol′skiĭ, A. L.)				
Birman, M. S. and Èntina, S. B. *The stationary method in the abstract theory of scattering*	31	401–430	1	391
Birman, M. S. and Solomjak, M. Z. *Asymptotic behavior of the spectrum of weakly polar integral operators*	34	1142–1158	4	1151
Blagodatskih, V. I. *Sufficient optimality conditions for differential imbeddings*	38	615–624	8	621
Blimov, I. N. *On the problem of reducibility of systems of linear differential equations with quasiperiodic coefficients*	31	349–354	1	335
A Newtonian iteration process	33	3–14	3	1
Bljumin, S. L. and Kotljar, B. D. *Hilbert-Schmidt operators and the absolute convergence of Fourier series*	34	208–217	4	215
Blošanskiĭ, I. L. *Equiconvergence of expansions in a multiple Fourier series and Fourier integral for summation over squares*	40	685–705	10	652
Bočkarev, S. V. *On the Fourier-Walsh coefficients*	34	203–208	4	209
On a problem of Zygmund	37	630–638	7	629
Bogomolov, F. A. *Kähler manifolds with trivial canonical class*	38	11–21	8	9
Classification of surfaces of class VII_0 with $b_2 = 0$	40	273–288	10	255
Bokut′, L. A. *Unsolvability of the equality problem and subalgebras of finitely presented Lie algebras*	36	1173–1219	6	1153

BOLGOV	Russian Tom	Pages	English Vol.	Pages
Bolgov, V. A. and Efimov, A. V. *On the rate of summability of orthogonal series*	35	1389–1408	5	1399
Borok, V. M. *Correctly solvable boundary value problems in an infinite layer for systems of linear partial differential equations*	35	185–201	5	193
On correct solvability of a boundary value problem in an infinite slab for linear equations with constant coefficients	35	922–939	5	935
Uniqueness classes for the solution of Gourzat's problem	38	418–429	8	423
Bratiščev, A. V. and Korobeĭnik, Ju. F. *The multiple interpolation problem in the space of entire functions of given proximate order*	40	1102–1127	10	1049
Brin, M. I. and Pesin, Ja. B. *Partially hyperbolic dynamical systems*	38	170–212	8	177
Briukman, Peter. *Tensor differential forms on algebraic varieties*	35	1008–1036	5	1021
Bronstein, M. A. *On polynilpotent products of groups*	31	671–686	1	651
Verbal wreath products of groups and discrimination of varieties	34	1209–1218	4	1215
Bronštein, M. A. (see also Ašmanov, S. A.)				
Brudnyĭ, Ju. A. *The approximation of functions by algebraic polynomials*	32	780–787	2	735
Approximation of functions of n variables by quasipolynomials	34	564–583	4	568
Brudnyĭ, Ju. A. and Ganzburg, M. I. *On an extremal problem for polynomials in n variables*	37	344–355	7	345
Bugrov, Ja. S. *Inequalities for polyharmonic polynomials in a mixed norm*	31	275–288	1	259
Function spaces with mixed norm	35	1137–1158	5	1145
Buhstaber, V. M. *Two-valued formal groups. Algebraic theory and applications to cobordism.* I	39	1044–1064	9	987
Two-valued formal groups. Algebraic theory and applications to cobordism. II	40	289–325	10	271
Buhštaber, V. M. and Miščenko, A. S. *K-theory on the category of infinite cell complexes*	32	560–604	2	515
Remark on the paper, "K-theory on the category of infinite cell complexes"	33	239	3	227
Buhvalov, A. V. *On the duality of functors generated by spaces of vector-valued functions*	39	1284–1309	9	1213
Bulanov, A. P. *On the order of approximation of convex functions by rational functions*	33	1131–1148	3	1067
Rational approximation of continuous functions of finite variation	39	1142–1181	9	1081
Bunimovič, L. A. *On a class of special flows*	38	213–227	8	219
Burd, V. Š., Kolesov, Ju. S. and Krasnosel'skiĭ, M. A. *Investigation of the Green's function for differential operators with almost periodic coefficients*	33	1089–1119	3	1027
On the existence and constancy of sign of Green's function of scalar equations of high order with almost periodic coefficients	33	1399–1415	3	1319
Burgin, M. S. *Commutative products of linear Ω-algebras*	34	977–999	4	979
Buslaev, V. I. *An inequality for the derivative of a polynomial with real coefficients*	39	413–417	9	390
Buslaev, V. I. and Vituškin, A. G. *An estimate of the code length of signals with a finite spectrum in connection with sound-recording problems*	38	867–895	8	867
Buslaev, V. S. *On the asymptotic behavior of the spectral characteristics of exterior problems for the Schrödinger operator*	39	149–235	9	139
Byčkov, S. N. *On the topological dimension of the essential boundary of polynomially convex domains*	40	463–468	10	445
Byhovskiĭ, È. B. *A global boundary-value problem for a quasilinear differential equation of first order*	38	1408–1456	8	1387
Čanturija, T. A. *On a comparison theorem for linear differential equations*	40	1128–1142	10	1075
Čencov, A. G. See Batuhtin, V. D.				
Čerednik, I. V. *An analog of Cartan duality over p-adic fields*	40	727–735	10	687
Čubarikov, V. N. See Arhipov, G. I.				
Cvetkov, V. M. See Andožskiĭ, I. V.				

DANILOV	Russian Tom	Pages	English Vol.	Pages
Danilov, V. I. See Gizatullin, M. H.				
Delone, B. N., Dolbilin, N. P., Ryškov, S. S. and Štogrin, M. I. *A new construction in the theory of lattice coverings of an n-dimensional space by equal spheres*	34	289–298	4	293
Dem'janenko, V. A. *Points of finite order on elliptic curves*	31	1327–1340	1	1271
On torsion points of elliptic curves	34	757–774	4	765
Torsion of elliptic curves	35	280–307	5	289
On the uniform boundedness of the torsion of elliptic curves over algebraic number fields	36	484–496	6	477
On Tate height and the representation of numbers by binary forms	38	459–470	8	463
On Mordell's conjecture	38	1193–1201	8	1181
Demuškin, S. P. *Cartan subalgebras of simple nonclassical Lie p-algebras*	36	915–932	6	905
Dezin, A. A. *Operators involving a first derivative with respect to time and nonlocal boundary conditions*	31	61–86	1	57
Dinaburg, E. I. *On the relations among various entropy characteristics of dynamical systems*	35	324–366	5	337
Dolbilin, N. P. See Delone, B. N.				
Dolgačëv, I. V. *On special algebraic K3 surfaces. I*	37	833–847	7	833
Dolgačëv, I. V. See Veisfeiler, B. Ju.				
Dolženko, E. P. *Boundary properties of arbitrary functions*	31	3–14	1	1
Drozd, Ju. A. *Adèles and integral representations*	33	1080–1088	3	1019
Drozd, Ju. A. and Kiričenko, V. V. *On quasi-Bass orders*	36	328–370	6	323
Primary orders with a finite number of indecomposable representations	37	715–736	7	711
Drozd, Ju. A., Kiričenko, V. V. and Roĭter, A. V. *On hereditary and Bass orders*	31	1415–1436	1	1357
Drozd, Ju. A. and Roĭter, A. V. *Commutative rings with a finite number of indecomposable integral representations*	31	783–798	1	757
Drozd, Ju. A., Zavadskiĭ, A. F. and Kiričenko, V. V. *Matrix problems and integral representations*	38	291–293	8	298
Droždžinov, Ju. N. *The stabilization of solutions of the generalized Cauchy problem for ultraparabolic equations*	33	368–378	3	345
Droždžinov, Ju. N. (see also Vladimirov, V. S.)				
Dubovickiĭ, A. Ja. *Sets of points of degeneracy*	31	27–36	1	25
Solution of a problem of S. Ulam on optimal matching of segments	40	672–684	10	639
Dudačava, R. V. *Convolution integral operators on a quadrant with discontinuous symbols*	40	388–412	10	371
Dymov, A. Z. *Homology spheres and contractible compact manifolds*	35	72–77	5	73
Dzjadyk, V. K. *On the application of linear methods to polynomial approximation of solutions of ordinary differential equations and Hammerstein integral equations*	34	827–848	4	835
The approximation method for approximating solutions of linear differential equations by algebraic polynomials	38	937–967	8	937
Džrbašjan, M. M. *A generalized Riemann-Liouville operator and some of its applications*	32	1075–1111	2	1027
Džrbašjan, M. M. and Kočarjan, G. S. *Uniqueness theorems for some classes of analytic functions*	37	98–134	7	95
Džrbašjan, M. M. and Saakjan, B. A. *Classes of formulas and expansions of Taylor-Maclaurin type associated with differential operators of fractional order*	39	69–122	9	63
Džrbašjan, M. M. and Zaharjan, V. S. *Boundary properties of subclasses of meromorphic functions of bounded form*	34	1262–1339	4	1273
A remark on the article "Boundary properties of subclasses of meromorphic functions of bounded form"	35	727	5	745
Džuraev, A. *A linear boundary value problem for a system of composite partial differential equations*	31	543–562	1	525
Èidel'man, S. D. and Porper, F. O. *An investigation of the behavior of L_2-norms of the solutions of strongly parabolic systems with dissipation*	37	676–690	7	675

EFIMOV	Russian Tom	Pages	English Vol.	Pages
Efimov, A. V. See Bolgov, V. A.				
Efremovič, V. A., Loginov, È. A. and Tihomirova, E. S. *Equimorphisms of Riemannian manifolds*	36	523–533	6	518
Èliašberg, Ja. M. *On singularities of folding type*	34	1110–1126	4	1119
Surgery of singularities of smooth mappings	36	1321–1347	6	1302
Èliašberg, Ja. M. (see also Gromov, M. L.)				
Elizarov, V. P. *Correction to the article by V. P. Elizarov, "Rings of quotients for associative rings"*	31	727	1	707
Èntina, S. B. See Birman, M. Š.				
Faĭnleĭb, A. S. *A generalization of Esseen's inequality and its application in probabilistic number theory*	32	859–879	2	821
Faĭnleĭb, A. S. (see also Levin, B. V.)				
Fel'dman, G. L. *On the homological dimension of group algebras of solvable groups*	35	1225–1236	5	1231
Fel'dman, N. I. *An effective refinement of the exponent in Liouville's theorem*	35	973–990	5	985
Fomenko, A. T. *Bott periodicity from the point of view of an n-dimensional Dirichlet functional*	35	667–681	5	681
Minimal compacta in Riemannian manifolds and Reifenberg's conjecture	36	1049–1079	6	1037
Fomin, G. A. *On linear methods for the summability of Fourier series that are similar to the Bernšteĭn-Rogosinski method*	31	335–360	1	319
Lebesgue constants of linear methods of summability for Fourier series	31	1133–1148	1	1081
Freĭdlin, M. I. *On the smoothness of solutions of degenerate elliptic equations*	32	1391–1413	2	1337
Fridman, B. L. *A nowhere dense space of linear superpositions of functions of several variables*	36	814–846	6	807
On a characterization of polynomial endomorphisms of C^2	37	319–328	7	319
Frolov, Ju. N. *On a uniqueness theorem*	36	240–247	6	241
Fuks, D. B. *Finite-dimensional Lie algebras of formal vector fields and characteristic classes of homogeneous foliations*	40	57–64	10	55
Fuks, D. B. (see also Gel'fand, I. M.)				
Gabrièlov, A. M. *Formal relations between analytic functions*	37	1056–1090	7	1056
Gabušin, V. N. *Inequalities between derivatives in L_p-metrics for $0 < p \leqslant \infty$*	40	869–892	10	823
Galkin, V. M. *ζ-functions of some one-dimensional rings*	37	3–19	7	1
Gamkrelidze, R. V. and Haratišvili, G. L. *Extremal problems in linear topological spaces*	33	781–839	3	737
Ganzburg, M. I. See Brudnyĭ, Ju. A.
